Summary

I am an UTS graduate student completing my bachelor degree and looking for a junior position in IT industry. A hard worker with experience of Java, PHP, C#, Javascript / AJAX and CSS, plus the knowledge of designing /developing web applications, I will be a valuable addition to your team.

Education in Australia

University of Technology, Sydney
 Bachelor of Science in Information Technology
 To be graduated: April 2010

Employment / Job experience

2010 : [Balloon ordering site for CarnivalandToy.com.au](http://CarnivalandToy.com.au)
 PHP+AJAX website that customers can order balloons and get delivery to the preferred address.

2010 : [UTS Vertigo website redesign](#)
 A volunteer job to redesign the UTS Vertigo website.

2009 : [UTS Peer Learning Support](#)
 A casual position which is a one-to-one helping service that covers first year subjects in UTS. Feedback from students is quite positive for the quality of service.

November 2008 - Present : [casual/part-time jobs as web developer/designer](#)
 A bunch of small projects done in PHP and AJAX, including a Sudoku web app for IBM, Alan Tomlinson's consultant website development, several work for Accedo.com.au and other miscellaneous stuff. More detailed information available on request.
